Helping You To Construct Solar Fields – On Time And To Budget

Arming the solar field installers with the right tools for the right conditions is essential. With constraints on time, labor, and expertise, finding a reliable partner who understands these challenges is crucial.

But who can you turn to with a portfolio of products and the expertise to help select the right equipment for your specific application?

Enter Rhino Innovation – your ultimate partner for overcoming these roadblocks with ease and efficiency.

With products, software, custom-engineered solutions, and personalized consultation across North America, we'll help you:

- Find the right tool for the right job
- Do more with less amid labor shortages
- Minimize downtime and time spent on rework
- Access the most ergonomic solutions
- Maximize workforce productivity and longevity
- Provide technical expertise needed to achieve quality metrics

Ready to reduce costs and win more repeat contracts? Contact Rhino Innovation today to be more productive, build a better-quality product, and maintain a safer environment.

Rhino Innovation isn't just another tool supplier. We're a strategic partner dedicated to helping solar EPCs execute high-quality projects on time and under budget.

With our acquisition of MP Industrial (MPI), we've further expanded our capabilities within **repair, maintenance, and calibration** services across the Western U.S. Imagine the results you can achieve alongside a trusted partner that offers personalized service with a national footprint!

Who Knows Which Tools You Need for Which Application? **We Do.**

Turn to Rhino Innovation for virtually every tool you'll need on the job site. Save time and money by making sure you have the right tools and equipment for mechanical, electrical, and audit work on utility solar projects.

TESTIMONIALS FROM OUR VALUED CLIENTS

“It was great to be able to rely on the expertise of Rhino Innovation for getting us the right tools and equipment that worked even in some severe and quite unexpected conditions.”

FIELD INSTALLATION MANAGER, EPC - Albuquerque, New Mexico

“When you’re on site and ready to work, the last thing you need is the headache of the wrong tools to get the job done. Thanks to Rhino Innovation we had the right tools which worked reliably and with consistent quality.”

INTEGRATION TEAM LEADER - Sacramento, California

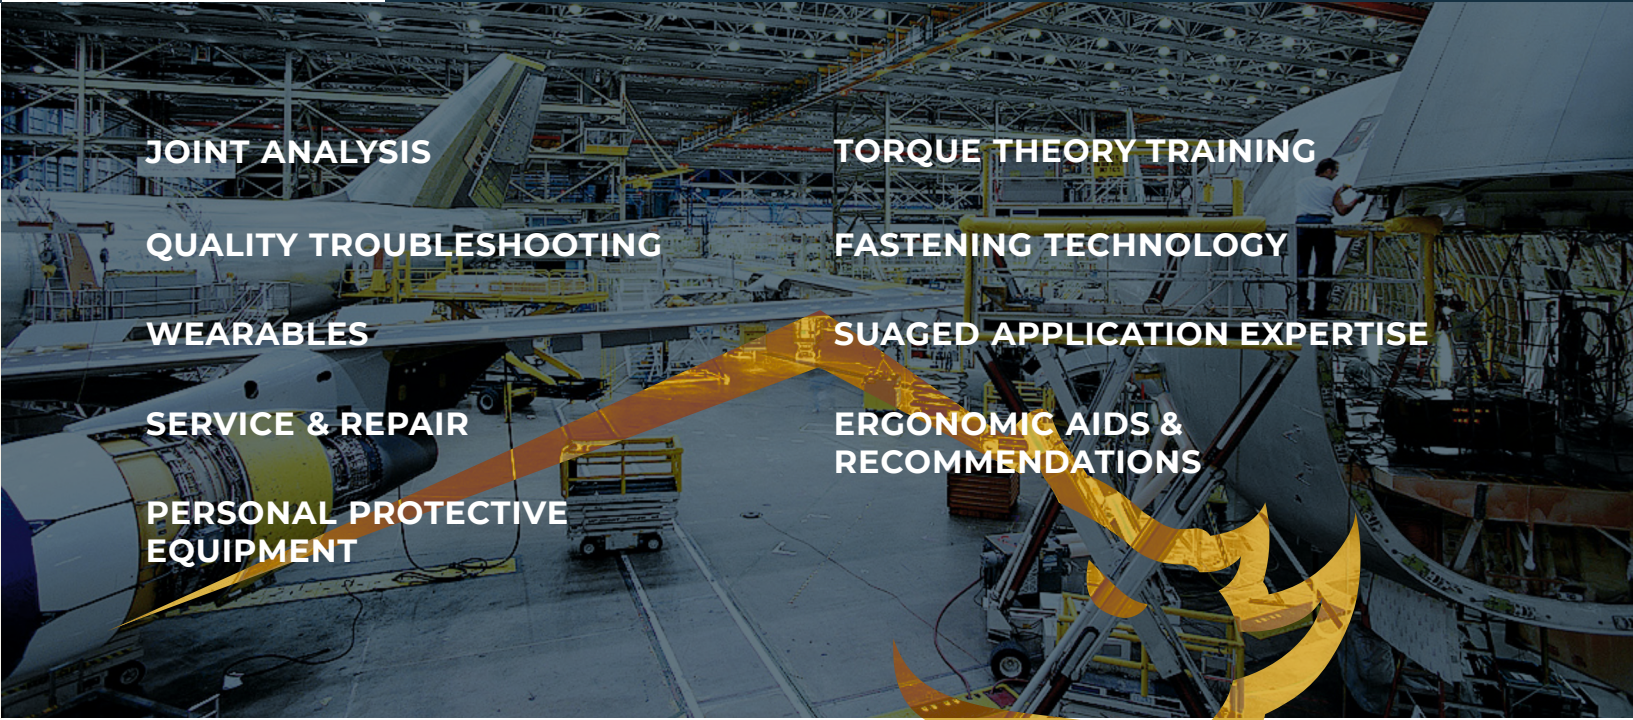

Why Choose Rhino Innovation?

You need help from a company whose mission is to identify and deliver the **world’s most innovative industrial solutions.**

We ensure confidence in our products by testing, testing, and then testing again. Avoid malfunctions on the job site and never do the same work twice when you choose solutions from Rhino Innovation.

In addition to the best products available to streamline your operations, you can also access personalized educational programs to help your team excel at:
